

ME

"A" is for Autism. Autism is the spectrum disorder that I have.

"U" is for understanding. Understanding social cues is very difficult for me, and because of this, it's hard to make friends.

"T" is for traits. We all have our own unique and different traits, which is what makes us special! My traits include being fun, caring, adventurous, clumsy, and kind. But... to some people it can seem like I'm being overly energetic, nosy, or hyper.

"I" is for interests. My interests are drawing, animation, gaming, and coding.

"S" is for Smiling. Always keep smiling even when you have a bad day! This always helps me when I feel like no one is understanding me.

"M" is for my Mom and Monty who have always been supporting me 24/7.

I want to change the world by sharing my experiences about Autism. It's a gift, not a problem. It's unique to me; it makes me who I am.
